-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 September 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Note new examiner.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3, 4 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recited amounts of components are confusing and thus are indefinite.

The claim recites that the sum of clay and silica is 40-79 parts by weight and the amount of clay is 30-50 parts by weight, and thus the amount of silica would be 10-49 parts by weight and cannot be the recited at least 5 parts by weight (without the upper limit). Also, the claim recites that the sum of clay, silica and carbon black is 41-80 parts by weight. However, the sum of clay and silica is 40-79 parts by weight and thus the amount of carbon black would be 1 part by weight, but the claim recites 5 to 65 parts by weight.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3, 4 and 6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter

Art Unit: 1714

which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

This is NEW MATTER rejection. The combination of the recited amount of clay and silica and amount of clay, silica and carbon black does not have support in the originally filed specification. The disclosure on page 6, lines 15-22 and 23 to page 7, line 3 shows said amount, but each paragraph is directed to the separate invention; broad teaching (page 6, lines 15-22) and narrow teaching (page 6, line 23 to page 7, line 3). This is why the recited amounts do not add up as the reason given above under 112, 2nd pp.

As pointed out above, the recited amounts of fillers are very confusing and thus a meaningful search cannot be obtained since the claimed amount(s) is unclear. The office action containing any prior art in the next office action would be final assuming applicant would amend claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H. Yoon whose telephone number is (571) 272-1128. The examiner can normally be reached on Mon-Thu.
